LUZ.

Yerba Mate Latte — the mate ritual, turned into the cup you look forward to. One brand idea everywhere: **Golden Clarity**.

LUZ

GOLDEN CLARITY

01

Brand story

LUZ means light. It started with a ritual: in South America, mate has always been more than something you drink — it's a reason to slow down, share, and be present. Founded by father-and-son duo Samer and Shadi Atassi (Shadi learned mate from his teammates chasing a football career in Argentina), LUZ brings that ritual into modern life: real mate energy, in a creamy vanilla latte, ready in thirty seconds.

Position: the modern expression of mate — an ancient ritual of presence, balance, energy and connection, turned into delicious, functional products for everyday life. Mate culture first, benefits second. A lifestyle brand, never a supplement brand.

The product: Vanilla Mate Latte — organic yerba mate extract (100 mg natural caffeine), 500 mg Lion's Mane, 200 mg L-theanine. Creamy, dairy-free, honey + monk fruit, <3 g sugar, ~90 cal. Hot or iced. $34.99 · 15 servings.

ON ONE LINE	
Essence	The mate moment: connection, conversation, presence
Promise	The functional ritual you actually enjoy
Personality	Creative · Warm · Natural · Expressive
Tagline	**Golden Clarity** (the only one)
Community line	Pass it on.
Never	Too wellness · too serious · too cheap · no cannabis echo
Company	LUZ standalone; "Milonga Life Corp" legal line only

02

Logo

The wordmark is **custom-drawn vector** (Didone-informed: thick stems, thin bowls, sharp slab serifs) — never typeset, never traced from AI output. The symbol is **el Sol**: a disc with eight tapered rays; its rising form sits on a horizon line.

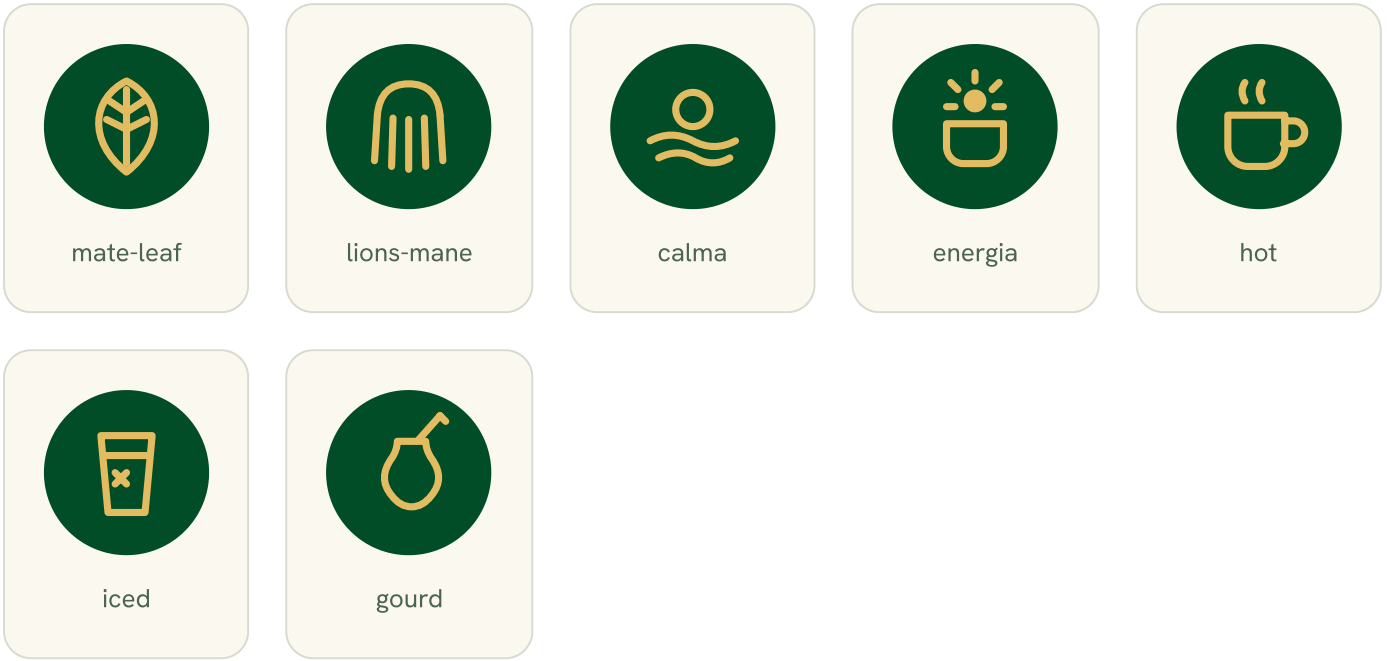

Graphic language

EL MONTE — THE LANDSCAPE

Layered treeline, beige sierra, rising sol — generated from brand geometry, so it is always consistent. It is the pack's label band, the web/email divider, and a croppable ground. Calm shapes only; never dense jungle, palms, or leaf motifs that could echo cannabis.

ICON CHIPS

Gold line art in a forest disc. Ingredients always travel together, in order: mate · lion's mane · L-theanine. Run icons big; never split a group, never recolor.

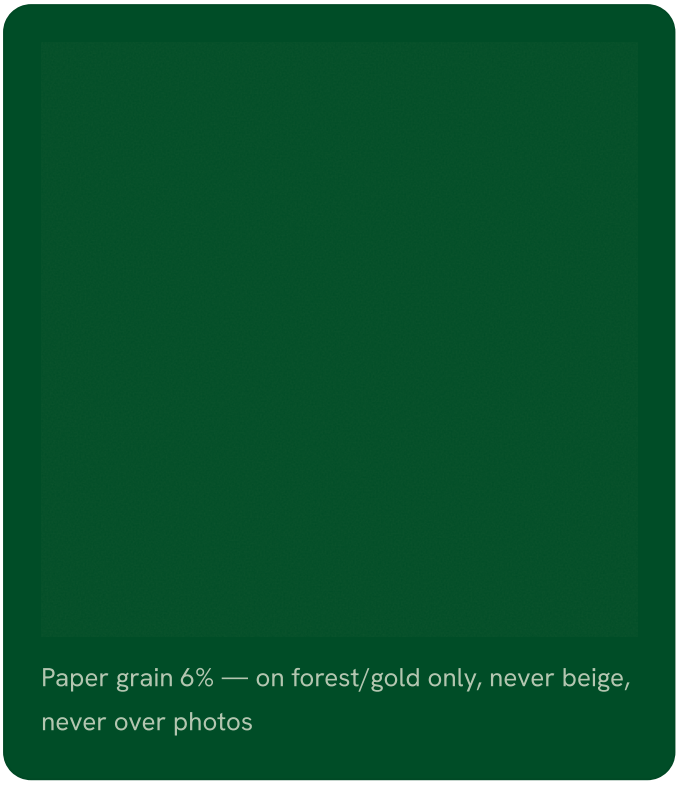

PATTERN & TEXTURE

Rayos — tone-on-tone (grounds, unboxing interior)

Rayos gold — social frames

Paper grain 6% — on forest/gold only, never beige, never over photos

06

Imagery

Two modes from the foundation: **Polished** (editorial, golden-hour, Casalú-level — site, email, Amazon) and **Raw** (phone-shot, Bloom-style — TikTok, creators, performance). Signature light: warm, low, directional; steam made visible by backlight. People mid-moment, never posing. Never: clinical props, mushroom imagery, grassy wellness, jungle density, anything cannabis-adjacent.

AI imagery rules: no logos or label text in prompts; the approved tin travels as a reference image; **every output is reviewed for label distortion — warped text means discard or composite the vector artwork.** People → soul_2 · product → nano_banana_pro · motion → seedance_2_0 / kling3_0. The full 17-prompt tested bank lives in `02_system/imagery/imagery.md`.

Voice

The Argentine friend everyone wants at the table. Short sentences. "You" more than "we". Funny, never mean. Functional, never medicinal. The feeling leads, facts back it up — "supports", never "boosts". LUZ adds the register of light: write the moment the light hits the table, not the ingredient list.

✅ DO	✕ DON'T
"Morning, aligned. Pour the light."	"Optimize your morning routine with nootropics."
"Che, your 2pm self called. It says thanks."	"Say goodbye to the afternoon crash forever!"
"Made for the long sobremesa."	"Engineered for maximum productivity."
"Supports focus you can actually feel."	"Boosts brainpower."
"One tin. Fifteen slow mornings."	"CHEAPER THAN YOUR LATTE HABIT!!"

dale	CTAs, replies	never on pack
sobremesa	storytelling, email	monthly, not daily
merienda	2–5pm content	afternoon-reset anchor
